

## **Commercial Litigation Associate**

We are looking for a highly qualified and ambitious commercial litigation associate to join our practice.

The successful candidate will have first-rate academic credentials, and excellent writing and analytical skills. Direct experience in commercial litigation is helpful, but not required, as is experience in competition law. As our commercial litigation practice focuses on serving participants in the franchising, licensing and distribution industries, and their related intellectual property needs, this position is ideal for a person having an interest in these industries.

Our culture is supportive, collegial, and team-oriented and specifically encourages and rewards individual initiative and performance in both responsibility and compensation.

We are committed to fairness, diversity, and equity in our work and in our workplace. Please reply in confidence by sending your CV, undergraduate and law school transcripts as well as two writing samples to [HR@sotos.ca](mailto:HR@sotos.ca).

We thank all applicants; however, only those considered for an interview will be contacted.
